Dear Welcome Home Friends & Family,

Thank you for your prayers, financial support and notes of encouragement. Without you Welcome Home would not be in existence. This past month had a lot of adjustments for all the children as 8 of our children were adopted into families in America. They are all pictured in the right hand column with their parents. Timothy Levi's mother did not come so that she has her time available to spend with him for his heart surgery. All the children have settled very well into their new families. Some are off to school and are excited about it.

Steven who is an older boy (from the village where we have our largest children's outreach) was very seriously ill with T.B. and lots of other medical issues. We assisted with his care, admitting him into International Hospital in Kampala for Intravenous treatment as his condition was very severe. He is now staying in the isolation room at Welcome Home to gain his strength and "fatten up" before he return home to village life. Canadian Medical Student & Past volunteer Peter O. arranged payment for all his expenses.

It does not take very long for our empty beds to fill up with new children needing love and care.

Pictured to the left are 4 beautiful new babies whose mothers all died in childbirth. Hopefully all these little ones will be able to return home to their dad's when they are three or four years old. We ask the families to come and visit on a regular basis so that the children will have relationship with them.

Please keep all our children in prayer for them to be healthy physically and emotionally and spiritually.

Again, thank you for your partnership
